## ABOUT ME

---

I'm a computer engineer specialized in iOS development, with experience in both corporations and startups. I'm passionate about building high-quality applications with a strong focus on architecture, usability, and scalability. I thrive in dynamic environments where innovation and rapid iteration are part of everyday work.

## EXPERIENCE

---

### iOS Developer

*Kelsus Inc.*

*Argentina*

*Jun 2022 - Present*

- Joined the development team of The Zoo, a social network used in the US and Canada.
- Working at Chewy, maintaining their app and integrating The Zoo features into their current platform.
